

MVSR Engineering College Nadergul, Hyderabad

3.3.1 Code of Ethics to check malpractices and plagiarism in research

Management and Principal have appreciated the importance of integrity in the Research Publications by Faculty and Project work of Students. Therefore, an evaluation method is established by the College for the Technical publications in Journals and Research papers.

1. Accepted Methodology for clearance of Technical publications by College

Following process will be used for clearance of Research documents.

- a) Soft copy of the document is run through anti-plagiarism for and quality check. Report on plagiarism should be part for giving concurrence by College.
- b) It is decided that similar/copy material content in the publication should be less than 24% , “threshold acceptable authenticity” ,for clearing to publication, keeping in view that similar ideas are expressed in research works.
2. A Centralised facility for ‘Research Publications check’ is established in CSE Dept. Department will check on publications by Faculty/ Students and ensure that the Research paper is meeting the “threshold acceptable authenticity” of the document
- 3. Instructions to Faculty / Students**
 - a. All the Researchers will submit the intended publishing material to CSE dept in prescribed format (sample attached) for obtaining clearance by College.
 - b. Document will be rewritten/modified to express the work carried out by the Researcher if the document contain more than “threshold acceptable authenticity” .
4. After obtaining clearance from College on the authenticity and anti plagiarism “threshold acceptable authenticity” , College will permit the publication of the document .In case of excess of material beyond accepted threshold is lifted from public domain, acknowledgements to the original research work are not made , Faculty/ Student will be warned/appropriate of disciplinary action taken.
