

Information : Announcing the Young Earthpreneurs Awards- Regarding

Greetings from All India Council for Technical Education !

We are happy to inform you that the global environmental NGO EARTHDAY.ORG just announced 'Invest In Our Planet' as its theme for Earth Day 2022. This partnership for the planet calls upon all businesses, governments, and citizens –everyone who lives on Earth – to help accelerate solutions to combat climate change.

To focus on the global Earth Day 2022 theme 'Invest In Our Planet', Earth Day Network-India (EDN) is pleased to launch 'Earthpreneurs'. Our 'Young Earthpreneurs Award' (YEA) forms the first part of this initiative. YEA invites college students who inspire to be entrepreneurs to showcase their innovative and implementable ideas that are likely to prevent climate change from reaching that critical tipping point.

EDN invite your students to demonstrate their skills, interests, and passion to 'Invest In Our Planet.' This they can do by developing and driving initiatives that stymie climate change; restore natural resources; reduce the burden of pollution; change mindsets so that environment-friendly practices become a natural and intrinsic part of human nature. It will help them be job providers, not mere job seekers.

The best ideas will receive wide publicity. Awardees will receive startup training, mentorship, an opportunity to interact with successful innovators and prize money to help them implement their ideas.

For any further clarifications, Email at:officeofregionaldirector@earthday.org.

In view of the above, AICTE requests your Institution(s) to kindly disseminate this information among all the faculty members and Students so that they can take the benefits from this award.
